

## SPECIFICATION

Range: **BEMOLLE**  
Design: **Atelier Mendini**

“Snowsound Fiber Technology” sound-absorbing element fixed to the wall.

Fabric description:

“Snowsound Fiber 6 Velvet” sound absorbing fabric, entirely in polyester. Equipped with metal hooks in the upper part for fixing to the structure.

The fabric has a **Class1** fire reaction (Italian standard) and **Euroclass B-s1, d0**.

The fabric is **Greenguard Gold certified**, which certifies its low VOC emission and its contribution to the quality of the indoor environment.

The fabric is **100% recyclable** and has no detectable formaldehyde content according to UNI EN 717-2. It doesn't contain felt or other organic materials (hard to recycle).

Fabric size: 6,5 m<sup>2</sup>

Wall fixing description:

Wall fixing structure composed of two elements: a plate to be fixed to the wall (L-shaped) made of 3 mm thick steel and a frame. The frame is composed of a 3 mm thick steel base with one welded shaped structure to support the fabric, made of 4 mm thick steel. The fabric is fixed to the structure by means of special steel hooks. Frame and plate, both epoxy powder coated, join together by means of special screws.
