Q-ACTIVE

Sustainable design

Main raw materials

Melamine

- Made from ~20% recycled materials.
- Low in formaldehyde emissions and complies with the CARB 2 and E05 standards.

Metal

- Made from $\geq 20\%$ recycled materials.
- Painted using powder paints with low emissions of volatile organic compounds.
- The desk frame has an Environmental Product Declaration.

Sustainable logistics

- Optimised packaging means that we transport more furniture and reduce the amount of CO2 emitted in the logistics chain.

Product longevity

- Easy disassembly/reassembly when moving to a new office.
- Matching a new desktop to the same desk frame and legs.

Q-ACTIVE

When the product relevance changes

- Possible disassembly up to 99%.
- Recyclability is up to 90%.

Range of the Q-ACTIVE sit-stand desks
