

VEGAS

A temptation to relax

narbutas

VEGAS lounge chairs are a perfect way to add more comfort to your office space while adding a stylish accent. A curved shape, lower and wider seating area implies a welcoming invitation to have a seat for anyone passing by.

Create your own lounge seating design

VEGAS lounge chairs come with two types of seats: with horizontal stitches or with only one connecting stitch.

The seat of the chair can be upholstered with fabric, leather look, or genuine leather. With our wide selection of colour options, you will be able to create a desired atmosphere for your relaxation or lounge area.

A chromed or powder-coated steel base gives a finishing touch to the lounge chair and creates a unique VEGAS design as well as ensuring added durability. Meanwhile plastic glides help to protect your floor from unwanted scratches.
