# ROUND Multipurpose

Designed for every work scenario

ROUND Multipurpose

# The need for greater flexibility and mobility in the work environment

The popularity of remote work, flexible working schedules and the shifted nature of work have influence in shaping the modern office. The line between spaces for different functions – individual work, meetings and relaxation – in the same place is blurring.

ROUND Multipurpose

# ROUND Multipurpose – designed for every work scenario

ROUND Multipurpose

# The collection consists of high and meeting tables

H= 1050 mm

H=900 mm

H= 740 mm

ROUND Multipurpose

# Main features:

- 1) Light industrial design
- 2) Functionalities for different scenarios
- 3) Wide range of applications

narbutas

# Light industrial design

“

Minimalist or decorative, industrial or biophilic design-inspired - ROUND Multipurpose system's design can be adapted to fit the needs of every space. We paid a lot of attention to the table's silhouette - it balances strict shapes and soft, rounded details, emphasising the subtle lightness of the furniture's character.

# Implementing the sustainability principles

ROUND Multipurpose

# Main raw materials

## Metal:

Made from ~20% recycled raw materials.

Painted using powder paints with low emissions of volatile organic compounds.

## Chipboard:

Made from ~20% recycled raw materials.

Low in formaldehyde and CARB 2 and E05 compliant.

## MDF:

Low in formaldehyde and CARB 2 compliant, while HPL Fenix is also Greenguard Gold certified.

ROUND Multipurpose

# Sustainability at every stage of the furniture lifecycle

Reliable and long-lasting design:

The furniture comes with a 10-year warranty.

Sustainable end of life of the product:

Up to 99% of the table's parts can be disassembled, sorted and recycled.

Lower environmental impact:

You can meet more office needs with less furniture.
