

FLIP-TOP

DESK WITH FLIP TOP

Frame:

- Firm and easily adjustable;
- Consists of brackets, legs in the form of an ellipsis and wheels;
- Can be used for desktops of several heights (140-160 cm).

Double locking is used to lift the desktop from working (horizontal) to vertical position, in which it stops automatically. Simply press the desktop for it to return to a horizontal position.

Easy storage: save space by flipping the tops to a vertical position and moving the tables together.

FLIP TOP working principle

Available dimensions:

1400x800, H=735 **CZA140**

1600x800, H=735 **CZA160**
