

EVA

CHAIR SYSTEM

*Inspiration and confidence
Design - Marc Ayachi*

Refined EVA design – it is graceful frame and elegant seat.

EVA system consists of operative and visitor chairs.

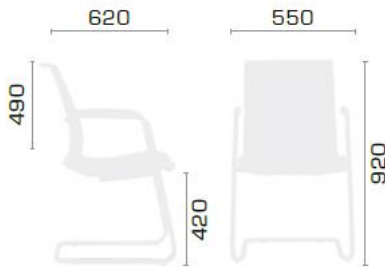

- Seat upholstered with leather or fabric. The back is made of mesh;
- White or black plastic frame;
- Height adjustable or fixed armrests (or without);
- Tilt mechanism lockable in 4 positions with body-weight adjustment;
- Polished aluminum or plastic base reinforced with fiberglass;
- 65 mm castors (plastic or covered with rubber).

Seat upholstered with leather or fabric. The back is made of mesh;

- Steel frame;
