Make room for one more idea

In lounge areas, you will often see tables that are suitable for putting a cup of coffee, but when informal conversations turn into project discussions, they become uncomfortable because of their height.

ZooZoo

What makes ZooZoo different from regular coffee tables?

The ZooZoo tables are more versatile, with a height that is perfect for note-taking or laptop work.

“

True collaborations happen when we embrace different ideas, include one another, and make room for one more.
