

## LIGHTING ELEMENT TECHNICAL CARD

Description: Fixture complete with a high efficiency LED light source with a nominal flux of 560 lm (3200 K). It is made from epoxy polyester powder coated aluminum. Driver 24V, electric cable length 190 cm and protected stripled 70 led/mt are included. The degree of protection against the penetration of dust, solid objects and liquids is IP65 for the lamp compartment and IP40 for the gear compartment.

### Luminaire details

Supply voltage	100-240V 50-60Hz
Driver 24Vdc	included
Insulation class	CL I
IP number	IP65/IP40
Glow wire	850° C
Impact test	IK04
European standards	EN60598-2-1 EN62471:2008, EN60825-1
Photobiological risk	RG0

### Lamp details

Lamp	LED
Type	Strip 60-3000
CRI	80
CCT	3000K
SDCM	3
Luminous flux @65°C	560lm
Power supply	24V
IEE 2019/2015	F
(Old IEE	A)
Life time	>40.000h L70/B50
